# Rapid, Automated Data Ingestion into Snowflake

Automate Any Data Extraction into Snowflake

For more than 10 years, Prominence Advisors has been helping leading health systems to move mountains and do more with their data. With more than **$720M** in documented ROI and **12,000 hours saved annually**, we've given healthcare organizations access to **self-service analytics** and the power to make **proactive, data-driven decisions**.
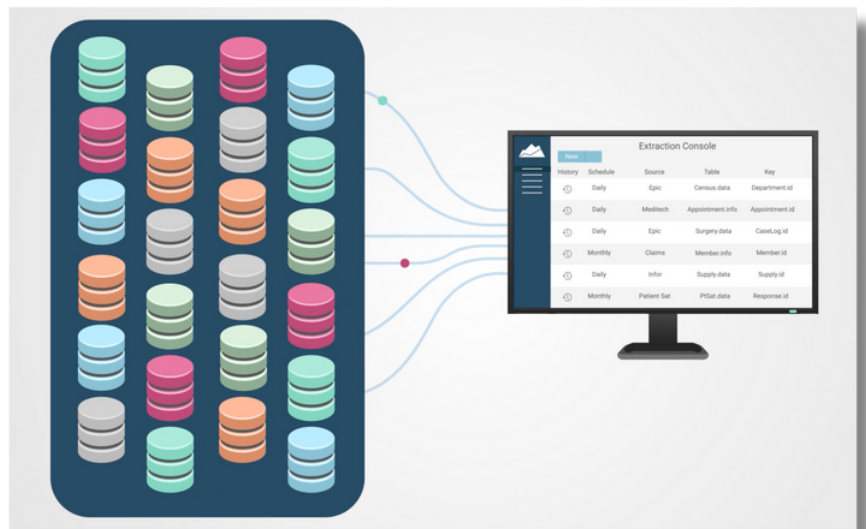

Our team is prepared to lead your organization to long-term success with your data. The **Prominence Platform** extracts, unifies, and configures **data from any source** into your data warehouse, giving you code-free governance of global metrics and dimensions and enabling you to **do more with your data.**
