IT Project Roadmapping

Proactive Evaluation of Your Organization's Project & Resource Needs

You're likely simultaneously leading multiple projects and managing priorities from all directions at your organization. Leverage our **2024 Best in KLAS HIT Staffing** expertise to **evaluate your project pipeline and assess your resource allocation** for current and future needs. Plan for upcoming projects and maximize resources efficiency.
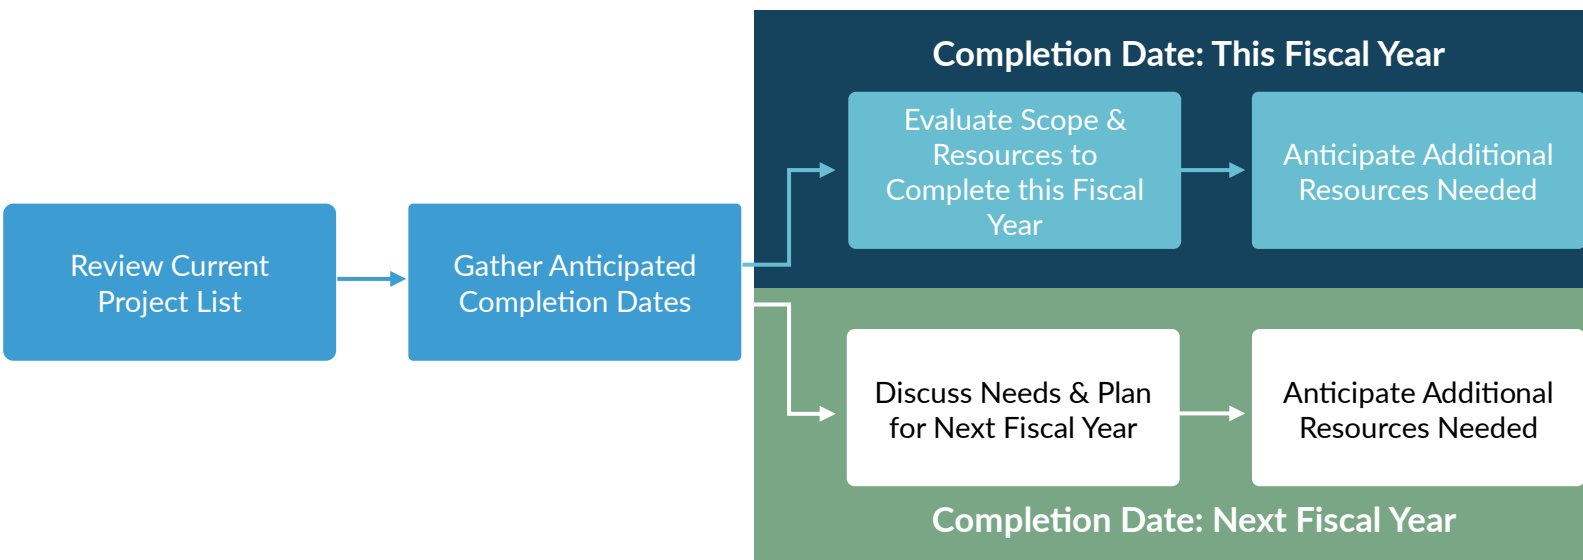

Roadmapping prior to budget submission or will increase your likelihood to secure funding and increase chances of on time, high quality, and at/under budget project completion.

Current Fiscal Year Evaluation

Looking at your shorter-term projects for this fiscal year allows you to properly allocate resources and assess your organization's needs.

Our team of experts has led health systems across the country to long-term success with our roadmapping recommendations.

Reviewing your current project plan and resource allocation gives you the chance to properly identify any projects that won't complete on time, within scope, or under budget without additional help. Our team of experts can help with everything from advising on project scope and requirements to estimating time and effort to providing additional resources to complete work.

Completion Date: This Fiscal Year

Review Current Project List → Gather Anticipated Completion Dates → Evaluate Scope & Resources to Complete this Fiscal Year → Anticipate Additional Resources Needed

Discuss Needs & Plan for Next Fiscal Year → Anticipate Additional Resources Needed

Completion Date: Next Fiscal Year

Next Fiscal Year Evaluation

Assessing IT projects for the next fiscal year provides your team with the opportunity to **properly gauge your needs in relation to the resources required** to complete project needs.

These priorities, whether IT or operational, impact the resources your organization will need. Planning ahead and evaluating needs in advance with a trusted partner like Prominence Advisors allows your team to leverage the expertise of our **2024 Best in KLAS HIT Staffing team**.

Through this roadmapping engagement, we will assess your IT and Operational Priorities, including **start dates, go-live dates, scope, and funding** to ensure that you properly gather and allocate the resources you need to **meet these goals and deadlines**.

IT Priorities	Operational Priorities
Epic	Epic
Other Vendor Projects	Non-Epic

Roadmapping Recommendations

Based on the evaluation of your organization's current and future projects and priorities, our team will provide a roadmap of the future and recommendations for resources and allocations.

Through an executive summary and report, we'll offer:

- Assumptions
- Scope Considerations
- Project requirements and Timing
- Resources

Create Long-Term Success
