

Oracle to SQL Server Migration

With Epic’s announcement to **no longer support Cogito on Oracle starting in 2027**, healthcare organizations across the country are beginning this migration. Prominence Advisors is prepared to lead your organization through this transition with our **GPT-Powered solution**.

GPT-Powered Solution

Our solution largely automates SQL syntax conversion using GPT generative AI. This **drastically reduces conversion time and effort** for your organization.

Potential Cost Savings

Oracle	SQL Server
<i>Pricing taken from Oracle’s Technology Guide Price List</i>	<i>Pricing taken from the Azure Pricing Calculator</i>
Oracle’s Processor Licensing Cost: \$47,500/year x 64 Licenses	MS SQL M128 (128 vCPU): \$420,480
Oracle Annual Support: ~\$700,000	SQL Server Support: \$12,000
Total Cost: \$3,740,000	Total Cost: \$432,480
Potential Savings: \$3,307,520
