

Prominence Compass

Easy Benchmarking for Health Systems

The Prominence Compass is a mini-benchmarking survey to help health leaders understand their organization's data governance strengths and opportunities relative to their peers. This aids in goal setting and YOY change review, allowing decision-makers to view their performance in relation to similar organizations and industry standards.

Prominence Compass Focus Areas

This evaluation focuses on 3 main areas:

People

Collaboration & Stewardship

To what level do you have a formally defined and engaged stewardship community?

Process

Data Asset Curation & Management

To what level does your organization have a data strategy?

Technology

Platforms, Tools, & Subject Matter Expertise

What is the utilization level of Data Governance technologies at your organization?

Participation Benefits

By answering this 9-question survey, your organization will unlock:

Rapid Insight into your Organization's focus on People, Process, and Technology

Comparison to other Compass Participants

Quality Information for Organizational Goal-Setting and YOY Change Review

Direction for Discussion and Presentation Content
