*Healthcare, Smarter.*

# Grants & Proposals

Managing activities on awards, grants and proposals is challenging, working within a complex environment governed by a multitude of policies and regulations.

Prominence's Grants and Proposals application provides insight into major indicators of financial compliance risk, using metrics that address highly regulated areas, such as sponsored research compliance and costing policies, as well as financial stewardship requirements, such as philanthropic fund management and deficit monitoring.

Our dashboard encourages proactive, comprehensive monitoring of risk and compliance, facilitates decision-making and prompts remediation actions, via an effective and efficient tool that eliminates much of the manual effort needed today.

**Understand** organizational level health in key activity areas with the ability to drill down into individual departments and PIs.

**Highlight** areas of risk proactively, before they become a problem, and take steps to ensure awards remain in compliance.

**Transition** from self-assessment to using data driven analytics with easy to gauge charts and metrics.

# Proven ROI

\$400MM+

## Documented ROI

In the hundreds of successful implementations with organizations across the country, Prominence has documented over \$400MM of ROI to date. It's one thing for someone to say that their solutions save time and money, but another thing to be able to back it up with a proven track record of success and hard ROI numbers.
